

Vincent MASSAUT

**Deputy Director « Business Development & Support»
at the Belgian Nuclear research center in Mol (SCK CEN)**

MSc in Engineering, electro-mechanics and nuclear engineering, University of Liège (1982), I spent most of my career at the SCK CEN in Mol (Belgian Nuclear Research Center).

- Currently Deputy Director Business Development & Support at SCK CEN, including aspects of waste & decommissioning, fusion material research, space R&D etc...
- Formerly Director of the fusion technology research at SCK CEN (2007-2014) after 2 years at EFDA in Garching. Former member of the F4E Technical Advisory Panel. Lecturer on fusion technology and nuclear aspects in fusion in various Universities and summer courses.
- Project Manager of the BR3 (PWR 11 MWe) European pilot decommissioning project, Chairman of OECD/NEA WPDD for 1 year, member of various international expert committees on decommissioning.
- Currently member of the European JRC-D&WM international expert group on nuclear dismantling in the 4 JRC. Member of the “Groupe Permanent Démantèlement”, to the French regulatory authority ASN.
- Authors of numerous papers and lectures on Decommissioning Nuclear facilities and on Fusion technology, materials, waste management and safety.
